

MK300

Android/Windows Price Checker

With the new Pos & Office price checker model, the MK300, you will be able to offer your customers a fast, comfortable and secure purchasing experience.

The MK300 price checker is a device that allows you to display the price and information of products by simply scanning the barcode.

The MK300 terminal has an 11.6" touch screen that offers you excellent visibility and a friendly interface. In addition, it has a front-facing 2D Imager barcode reader, which can read codes from mobile device screens, allowing you to offer personalized promotions and discounts.

The MK300 price checker terminal is also easy to install and use, as it is compatible with Android 11 or Windows 10 Pro operating systems, depending on your preferences and needs. And if you want to save space and add a touch of elegance to your business, you can mount the MK300 on the wall, thanks to its VESA compatibility.

The MK300 price consultation terminal has a modern and robust design, with an aluminum alloy frame, a metal/ABS plastic casing and a touch screen with tempered glass, which give it great resistance and durability.

The MK300 is the ideal price verifier for use in Supermarkets, wholesalers, pharmacies, retail and any other type of business that requires an innovative, reliable and attractive solution.

- 11.6" Touch Screen
- 2D Imager Barcode Scanner
- Android or Windows
